

Sophie's Choice: Boobs or Butt?

By, *[Sophie|https://substack.com/@philosophieblog?utm_source=user-menu]*

Do men's sexual preferences for different body parts in a woman say anything about his personality or political leanings?

/You are completely anonymous, so don't lie ;)/

/This should only take a couple minutes!/

Results will be posted on the *[PhiloSophie|https://philosophieblog.substack.com/]* blog. Subscribe for updates, posts, and upcoming studies! <3

*button: Start survey!

*back: yes

*question: To what degree are you *extroverted*, with 0 being not at all and 100 being very? Extroversion measures how outgoing, energetic, and socially oriented an individual is. It reflects the degree to which someone seeks stimulation and thrives in social environments.

*type: slider

*back: yes

*question: To what degree are you *conscientious*, with 0 being not at all and 100 being very?

Conscientiousness describes the extent to which an individual is organized, reliable, responsible, and self-disciplined. People high in conscientiousness tend to be meticulous, goal-oriented, and able to plan and control their impulses effectively. Those low in conscientiousness might be more spontaneous, disorganized, or less focused on long-term planning.

*type: slider

*back: yes

*question: To what degree are you high in *openness*, with 0 being not at all and 100 being very?

Openness reflects an individual's willingness to embrace new experiences, ideas, and creativity. People high in openness tend to be curious, imaginative, and open-minded, while those low in openness may prefer routine, tradition, and familiarity.

*type: slider

*back: yes

*question: To what degree are you *neurotic*, with 0 being not at all and 100 being very? Neuroticism measures emotional stability and the tendency to experience negative emotions. It reflects how prone someone is to psychological stress, anxiety, mood swings, and emotional instability.

*type: slider

*back: yes

*question: To what degree are you *agreeable* with 0 being not at all and 100 being very? Agreeableness encompasses qualities such as kindness, empathy, cooperation, and the tendency to prioritize social harmony. People high in agreeableness are typically warm and compassionate, while those low in agreeableness may be more competitive, skeptical, or blunt

*type: slider

*back: yes
